Contents to Volume 51 (1992)

Number 1 – October 1992

Editorial Comment

The placebo effect: an unpopular topic
P.D. Wall (UK) 1

Review Article

The formalin test: an evaluation of the method
A. Tjølsen, O.-G. Berge, S. Hunskaar, J.H. Rosland and K. Hole (Norway, Sweden) 5

RESEARCH REPORTS

The antinociceptive effects of intrathecally administered cannabinoids are influenced by lipophilicity
A.H. Lichtman, P.B. Smith and B.R. Martin (USA) 19

Quantitative sensory examination in human epidural anaesthesia and analgesia: effects of lidocaine
J. Brennum, L. Arendt-Nielsen, N.H. Secher, T.S. Jensen and P. Bjerring (Denmark) 27

The role of stressful life events in the persistence of primary headache: major events vs. daily hassles
G. De Benedittis and A. Lorenzetti (Italy) 35

Cervicogenic headache, migraine without aura and tension-type headache. Diagnostic blockade of greater occipital and supra-orbital nerves
G. Bovim and T. Sand (Norway) 43

Long-term efficacy of combined relaxation: biofeedback treatments for chronic headache
A. Cott, W. Parkinson, M. Fabich, M. Bédard and R. Marlin (Canada) 49

Dissociating spontaneous and deliberate expressions of pain: signal detection analyses
K.M. Prkachin (Canada) 57

A canonical correlation analysis of the influence of neuroticism and extraversion on chronic pain, suffering, and pain behavior
J.B. Wade, L.M. Dougherty, R.P. Hart, A. Rafii and D.D. Price (USA) 67

The relationship between spouse solicitousness and pain behavior: searching for more experimental evidence
R. Lousberg, A.J.M. Schmidt and N.H. Groenman (Netherlands) 75

The behavioral response to formalin in preweanling rats
E.R. Guy and F.V. Abbott (Canada) 81

Vagal afferent fibers excite upper cervical neurons and inhibit activity of lumbar spinal cord neurons in the rat
Q.-G. Fu, M.J. Chandler, D.L. McNeill and R.D. Foreman (USA) 91

Effects of selective neurotoxic lesion of lumbosacral serotonergic and noradrenergic systems on autotomy behaviour in rats
M. Feria, A. Sánchez, F. Abad and P. Abreu (Spain) 101

T-lymphocyte subsets in otherwise healthy patients with herpes zoster and relationships to the duration of acute herpetic pain
K. Higa, B. Noda, H. Manabe, S. Sato and K. Dan (Japan) 111

LETTERS TO THE EDITOR

The simultaneous interview technique (SIT) and the codisciplinary model of chronic pain treatment
A.J. Mariano, L. Jacobson, E.F. Chaney and C. Chabal (USA) 119

On the controversy of autotomy: a response to L. Kruger
M. Levitt, J. Ovelmen-Levitt, E. Rossitch, Jr. and B.S. Nashold, Jr. (USA) 120

Comments on Ward et al., *PAIN*, 44 (1991) 151–155
J.B. Nick, K.V. Mann and A.R. Temple (USA) 122

Response to Drs. J. Nick, K. Mann and A. Temple
N.G. Ward and C.W. Whitney (USA) 123

Does pre-operative fentanyl administration influence postoperative analgesia?
J. Katz, B.P. Kavanagh and A.N. Sandler (Canada) 123

Reply to Katz et al.
I.E. Kiss and M. Kilian (Germany) 124

Comments on Gong et al., Pain, 48 (1992) 249–255
T. Cramond, M.T. Smith and J.A. Watt (Australia) 124

Reply to Cramond et al.
T. Hedner (Sweden) 125

395

Comments on Swerdlow and Dieter, *PAIN*, 48 (1992) 205–213
J. Christiansen (USA) 125
Reply to Dr. J. Christiansen
B. Swerdlow and J.N.I. Dieter (USA) 126

Announcement from the Publisher 129

Number 2 – November 1992

Guest Editorial
Coping with pain: conceptual concerns and future directions
F.J. Keefe, A.N. Salley, Jr. and J.C. Lefebvre (USA) 131

RESEARCH PAPERS

Demonstration of dynorphin A 1-8 immunoreactive axons contacting spinal cord projection neurons in a rat model of peripheral inflammation and hyperalgesia
R.L. Nahin, J.L.K. Hylden and E. Humphrey (USA) 135
The depressive effect of intrathecal clonidine on the spinal flexor reflex is enhanced after sciatic nerve section in rats
X.-J. Xu, M.J.C. Puke and Z. Wiesenfeld-Hallin (Sweden) 145
Description of a mechanistic approach to pain management in advanced cancer. Preliminary report
M.A. Ashby, B.G. Fleming, M. Brooksbank, B. Rounsefell, W.B. Runciman, K. Jackson, N. Muirden and M. Smith (Australia) 153
Plasma and cerebrospinal fluid β-endorphin in chronic tension-type headache
F.W. Bach, M. Langemark, N.H. Secher and J. Olesen (Denmark) 163
Cervicogenic headache, migraine, and tension-type headache. Pressure-pain threshold measurements
G. Bovim (Norway) 169
Painful neuropathy: altered central processing maintained dynamically by peripheral input
R.H. Gracely, S.A. Lynch and G.J. Bennett (USA) 175
Intrathecal co-administration of substance P and NMDA augments nociceptive responses in the formalin test
N. Mjellem-Joly, A. Lund, O.-G. Berge and K. Hole (Norway, Sweden) 195
Formalin pain is expressed in decerebrate rats but not attenuated by morphine
B.K. Matthies and K.B.J. Franklin (Canada) 199
Dynamic and static components of mechanical hyperalgesia in human hairy skin
M. Koltzenburg, L.E.R. Lundberg and H.E. Torebjörk (Sweden, Germany) 207
Daily coping with pain from rheumatoid arthritis: patterns and correlates
G. Affleck, S. Urrows, H. Tennen and P. Higgins (USA) 221
Behavior of patients with lung cancer: description and associations with oncologic and pain variables
D.J. Wilkie, F.J. Keefe, M.J. Dodd and L.A. Copp (USA) 231
β-Endorphin processing and cellular origins in rat spinal cord
H.B. Gutstein, D.M. Bronstein and H. Akil (USA) 241

CLINICAL NOTES

The NMDA-receptor antagonist CPP abolishes neurogenic 'wind-up pain' after intrathecal administration in humans
J.D. Kristensen, B. Svensson and T. Gordh, Jr. (Sweden) 249
Grand mal seizures associated with high-dose intravenous morphine infusions: incidence and possible etiology
R.E. Gregory, S. Grossman and V.R. Sheidler (USA) 255

LETTERS TO THE EDITOR

Comments on *PAIN*, 48 (1992) 61–71
S. Bennett (USA) 259
Reply to S. Bennett
N. Clavier, M.C. Lombard and J.-M. Besson (France) 259
Putative role of hydromorphone metabolites in myoclonus
N. Babul and A.C. Darke (Canada) 260
Is Octreotide a save drug?
J. Devulder (Belgium) 261
Reply to J. Devulder
R.D. Penn, J.A. Paice and J.S. Kroin (USA) 261
Not all pain is in the spinal cord
F. Cervero (UK) 262
Reply to F. Cervero
D.D. Price (USA) 262
Comments on *PAIN*, 49 (1992) 293–300
P.C. de Jong and P.J. Kansen (The Netherlands) 263

Reply to de Jong and Kansen
S.L. Du Pen (USA) 264

Number 3 – December 1992

Editorial Comment 265

RESEARCH REPORTS

The Pain Beliefs Questionnaire: an investigation of beliefs in the causes and consequences of pain
L.C. Edwards, S.A. Pearce, L. Turner-Stokes and A. Jones (UK) 267

Chronic pain coping measures: individual vs. composite scores
M.P. Jensen, J.A. Turner and J.M. Romano (USA) 273

Relations between experimentally induced tooth pain threshold changes, psychometrics and clinical pain relief following TENS. A retrospective study in patients with long-lasting pain
E.G. Widerström, P.G. Åslund, L.-E. Gustafsson, C. Mannheimer, S.G. Carlsson and S.A. Andersson (Sweden) 281

Effect of temporomandibular disorder pain duration on facial expressions and verbal report of pain
L. LeResche, S.F. Dworkin, L. Wilson and K.J. Ehrlich (USA) 289

The consistency of facial expressions of pain: a comparison across modalities
K.M. Prkachin (Canada) 297

Reflex sympathetic dystrophy in brain-injured patients
H. Gellman, M.A.E. Keenan, L. Stone, S.E. Hardy, R.L. Waters and C. Stewart (USA) 307

Effects of age and size on development of allodynia in a chronic pain model produced by sciatic nerve ligation in rats
E.N. Tanck, J.S. Kroin, R.J. McCarthy, R.D. Penn and A.D. Ivankovich (USA) 313

Neonatal capsaicin treatment prevents the development of the thermal hyperalgesia produced in a model of neuropathic pain in the rat
S.T. Meller, G.F. Gebhart and T.J. Maves (USA) 317

Sympathectomy does not abolish bradykinin-induced cutaneous hyperalgesia in man
R.A. Meyer, K.D. Davis, S.N. Raja and J.N. Campbell (USA) 323

Effects of intrathecal capsaicin and an NK-1 antagonist, CP,96-345, on the thermal hyperalgesia observed following unilateral constriction of the sciatic nerve in the rat
T. Yamamoto and T.L. Yaksh (USA) 329

Selective changes of receptive field properties of spinal nociceptive neurones induced by noxious visceral stimulation in the cat
F. Cervero, J.M.A. Laird and M.A. Pozo (UK) 335

Intrathecal somatostatin in the guinea pig: effects on spinal cord blood flow, histopathology and motor function
P. Mollenholt, C. Post, I. Paulsson and N. Rawal (Sweden) 343

Electrical stimulation of the subdiaphragmatic vagus in rats: inhibition of heat-evoked responses of spinal dorsal horn neurons and central substrates mediating inhibition of the nociceptive tail flick reflex
C.L. Thurston and A. Randich (USA) 349

Acute tolerance to nitrous oxide in humans
D.S. Ramsay, A.C. Brown and S.C. Woods (USA) 367

The postmastectomy pain syndrome and topical capsaicin: a randomized trial
C.P.N. Watson and R.J. Evans (Canada) 375

LETTERS TO THE EDITOR

Comments on the isobole method for analysis of drug interactions
G.F. Gebhart (USA) 381

A further comment on testing for drug synergism
R.J. Tallarida (USA) 381

Comments on Tallarida and Miaskowski et al.
S.C. Roerig (USA) 382

Comments on Miaskowski et al., *Pain* 49 (1992) 137–144
G. Williams (USA) 383

Comments on the evaluation of drug interactions using isobolographic analysis and analysis of variance
C. Miaskowski and J.D. Levine (USA) 383

Reply to the letter of Dr. Gebhart
J.L. Plummer and G.K. Gourlay (Australia) 387
